The INVISIBLE BIFOCAL GLASSES

The great advantage of our Bifocal Glasses is that it is a return to the eye of youth. They serve every purpose of seeing-just as perfect for distance as for close vision-You do not have to remove them or strain the muscles to look up from close work. They are ground to meet the NATURAL eye conditions and they do meet them, because no matter what you want to see, whether a "mile away" or a "foot near," the vision is just as perfect as the "vision of childhood."

Neither are there any cracks, seams or dividing lines, just a neat smooth lense with both near and distant vision. Ground in a solid piece of glass.

The business or professional man, the person who uses reading glasses a good deal of the time and is subject to the annoyance of removing them a thousand times each day, will appreciate the convenience and benefit of our Kryptok Invisible Bifocal Glasses.

Do not buy glasses from people who go from house to house or town to town. The "eyes you have" are the "only ones" you "ever will have," so guard them carefully.

Eyeglasses and Spectacles

Of course you can still pay \$25 and more for a pair of glasses if you want to, but when we say that highgrade optical prices have come down, we mean that we have worked out a plan founded on fair prices and fair profits that attracts a large volume of sales. We conduct our business with low rents and low over head cost and as a result we have brought the price of high-class glasses and spectacles, including our expert examination, to almost one-half the former charges.

We Surely Merit a Trial

We have told our story, as briefly as possible, consistent with the many facts that we wanted to drive home. The case now rests with you. Surely an array of thousands of standard optical products merits your consideration. Certainly such prices will be apparent right off hand. We ask for a trial to convince you, and permanently deserve your patronage.

Every detail in the construction of your glasses is carefully studied and is made permanent only after the most exhaustive tests. You not only obtain eye comfort and convenience, but real eye benefit from the standard which we have established. OUR IDEA OF SERVICE
